Harley-Davidson Sportster Performance
Handbook, 3rd Edition Buzz Buzzelli
For Harley-Davidson aficionados, the
very name Sportster conjures an image
of a fire-breathing mechanical beast
scorching the world's tarmac image
the Sportster itself often does not
live up to. Straight from the
factory, in its standard form, the
Sportster routinely proves an entry-
level motorcycle providing a
relatively tame ride. This book aims
to change all that and to show every
Sportster rider how to free the beast
in his or her bike. With expert,
detailed advice on the proper
mechanical massaging and plenty of
helpful diagrams and photos this
updated, third edition of Buzz
Buzzelli's best-selling handbook
shows how the Sportster can be
transformed into the superbike of
old. Including a history of the
Sportster from its birth in 1957 to
the recent introduction of a new
engine (only the third in its long
life), this book has everything it
takes to open up the gates of hell
and give the Sportster its head.
