**Church in a World of Religions** Tom Greggs 2021-12-16 In this collection of essays, Tom Greggs explores the nature of the church in a world of many religions. Greggs' writings on the Church and on other religions emphasize the importance of attentiveness to Christ and the Holy Spirit, and both are simultaneously generous and particularist. The first part of the book addresses the Church as it is brought into being by the Spirit in glorifying God, celebrates the sacraments, respects the authority of the creeds, is generously Catholic, and critiques its own religion. The second part looks at the church in a pluralist context as it engages in inter-faith dialogue, expresses both particularism and universalism, speaks of Christ with many names, and reads scripture and understands the many covenants found there. Greggs offers a programmatic conclusion, setting an agenda for theologies of the church and of other religions and their simultaneous relationality.

**Theology and Form** Nicholas Denysenko 2017-05-30 How do space and architecture shape liturgical celebrations within a parish? In *Theology and Form: Contemporary Orthodox Architecture in America*, Nicholas Denysenko profiles seven contemporary Eastern Orthodox communities in the United States and analyzes how their ecclesiastical identities are affected by their physical space and architecture. He begins with an overview of the Orthodox architectural heritage and its relation to liturgy and ecclesiology, including topics such as stationary liturgy, mobility of the assembly, the symbiosis between celebrants and assembly, placement of musicians, and festal processions representative of the Orthodox liturgy. Chapters 2-7 present comparative case studies of seven Orthodox parishes. Some of these have purchased their property and built new edifices; Denysenko analyzes how contemporary architecture makes use of sacred space and engages visitors. Others are mission parishes that purchased existing properties and buildings, posing challenges for and limitations of their liturgical practices. The book concludes with a reflection on how these parish examples might contribute to the future trajectory of Orthodox architecture in America and its dialogical relationship with liturgy and ecclesial identity.

*The Oxford Handbook of the Bible in America* Paul C. Gutjahr 2017 Early Americans have long been considered "A People of the Book" Because the nickname was coined primarily to invoke close associations between Americans and the Bible, it is easy to overlook the central fact that it was a book-not a geographic location, a monarch, or even a shared language-that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture. Few books can lay claim to such powers of civilization-altering influence. Among those which can are sacred books, and for Americans principal among such books stands the Bible. This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions. It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power, as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation's politics and foreign policy. This Handbook brings together a number of established scholars, as well as younger scholars on the rise, to provide a scholarly overview--rich with bibliographic resources--to those interested in the Bible's role in American cultural formation.

**Women and Ordination in the Orthodox Church** Gabrielle Thomas 2020-07-10 Contributing Authors: Fr. John Behr Dr Spyridoula Athanasopoulou-Kypriou Dr. Dionysios Skliris Fr. Andrew Louth Dr Mary Cunningham Met Kallistos Ware Rev Dr Sarah Hinlicky Wilson Dr Kyriaki Karidoyanes FitzGerald Dr Carrie Frederick Frost Dr Paul Ladouceur Luis Josue Sales This book--a collaborative, international initiative, involving academic

theologians and practitioners--invites the reader into a conversation about the ordination of women in the Orthodox Church. It explores questions relating to the significance of being human, Eve's curse, sexed bodies, the place of Mary, the nature of priesthood, the role of the deacon, and the task of being a priest in the twenty-first century. The reflections move across three main areas of discussion: issues of theological anthropology, particular questions pertaining to the priesthood and the diaconate, and contemporary practices. In each area the implications for ordaining women in the Orthodox Church today are explored. *Current Law Index* 1998

**Deaconesses, the Ordination of Women and Orthodox Theology** Eleni Kasselouri-Hatzivassiliadi 2018-06-11 This collection of essays highlights the thorny and divisive issue of the admission of women into the sacramental diaconal priesthood of the Christian Church from the Orthodox theological perspective. The contributions here stem from scientific papers presented at an international conference titled "Deaconesses, Ordination of Women and Orthodox Theology", organized in Thessaloniki, Greece, in 2015 by the Center of Ecumenical, Missiological and Environmental Studies (CEMES). They cover almost all the fields of biblical, liturgical, patristic, systematic, canonical, and historical theology. The volume's main focus is the ancient order of deaconesses, in connection with the overall issue of the ordination of women. Although most papers address the issues from an Orthodox perspective, their sober analysis can provide theological argumentation for the wider Christian community, both the Churches and Christian denominations that exclude women from the sacramental priesthood, and those that have already adopted their ordination.

*Migration and Diaspora Formation* Ciprian Burlăcioiu 2022-09-19 The role of migration for Christianity as a world religion during the last two centuries has drawn considerable attention from scholars in different fields. The main issue this book seeks to address is the question whether and to what extent migration and diaspora formation should be considered as elements of a new historiography of global Christianity, including the reflection upon earlier epochs. By focusing on migration and diaspora, the emerging map of Christianity will include the dimension of movement and interaction between actors in different regions, providing a more comprehensive 'map of agency' of individuals and groups previously regarded as passive. Furthermore, local histories will become parts of a broader picture and historiography might correlate both local and transregional perspectives in a balanced manner. Behind this approach lies the desire to broaden the perspective of Ecclesiastical History – and religious history in general – in a more systematic manner by questioning the traditional criteria of selection. This might help us to recover previously lost actors and forgotten dynamics.

**The Ecumenical Movement** Thomas E. FitzGerald 2004 Provides an overview of the major characteristics and themes of the ecumenical movement, which has sought to bring unity to the various Christian churches.
